OUR VISION

1

To satisfy and meet customer expectation by developing and providing desire products and service on time, which offer value in terms of quality & price.

2

High Performance Low Expense

Production follow up :

4stitch have a good set up to execute the order properly and ensuring the on time delivery with good quality. Production is followed-up daily by our qualified team of Merchandisers who carefully take care the status of raw materials, accessories, knitting, dyeing, sewing etc. Quality team followed-up the production at factory ground and ensure the quality and they communicate with the merchandising team for each and every issues.

QUALITY

Quality comes first. As a client you have the right to expect high quality garments. 4stitch will ensure the quality and committed to achieve satisfactory level of the client. 4stitch ensure the quality of first lot of fabric of every new order which is tested at their in-house facilities or sometimes from SGS, ITS for more confirmation. Once approved the fabrics, factory may proceed with cutting. After pilot run assessment 4stitch given permission to run the bulk production means we ensure the quality from 1st pieces of product. Once completed the production, 4stitch quality team will conduct a final audit. Before shipment we will send a final audit report to our client. In case of nominated audit team, 4stitch team can cooperate with them as their requirement. We will send production samples before shipment for the final approval of our client. Which samples collect from the first lot of production and submitted to the client immediately.
